este trabajo tiene como primera exigencia la de abordar la enseñanza y el aprendizaje del discurso oral en la educación primaria para enraizar tal cometido con nuestra tradición escolar hemos llevado a cabo un recorrido por aquellos grandes momentos del sistema educativo español en los que olvidada la retórica los pilares de la educación lingüística quedaron reducidos a la lectura gramática y escritura la lengua hablada por el contrario prácticamente no se ha contemplado como materia de aprendizaje relacionada con el arte de hablar desde el plan pidal de 1845 de igual modo analizamos las nuevas aportaciones que han incorporado a la didáctica de la lengua los estudios dialectológicos la sociolingüística la pragmática o el análisis del discurso todas ellas han contribuido a un cambio de perspectiva en relación con la educación lingüística y a la

recuperación del hablar en nuestras aulas una vez vistas las aportaciones que han hecho estas disciplinas al aprendizaje de las lenguas y estudiados los materiales curriculares de las editoriales preferidas por los centros educativos hemos recogido mediante un trabajo empírico en una zona rural de la provincia de almería muestras representativas para la elaboración de un corpus de los usos discursivos orales de los escolares de primaria estas muestras nos indican que el nivel de competencia pragmático discursiva sigue siendo el más deficiente a estas edades finalmente hemos formulado una propuesta didáctica que pretende casar los aspectos de las retóricas referidos a la lengua oral con las cualidades de todo discurso hablado coherencia cohesión corrección adecuación pragmatismo y estilo
